

HKTA Shun Yeung Primary School

SY CAFÉ

SY Café –英語情境活動室

English Activity Room (for scenarios and simulations)

Students can engage in conversations with our school-based NETs during recesses in the Shun Yeung Café (SY Café). More-able student helpers role-play as waiters, waitresses, servers and cashiers to participate in routine activities, for instance, taking customers' orders, table manners and etiquette, utilizing extended vocabulary items in conversations and so on. We also provide food, desserts, delicacies and juice on Open Days in order for students to have an authentic experience of how to order in cafés, coffee shops and restaurants.

Student servers, NETs and English teachers take orders for students who come to the café and engage in free conversations.

Aside from the normal activities held in the Shun Yeung Café, we also provide a variety of fun activities for both our students and kindergarteners. For example, our NETs tell a short story before letting the students experience how to make food creatively - *Goodies for Foodies!*

Kids and parents make a spider critter out of crackers, biscuit sticks, chocolate and Nutella spread. They have an extremely good time!
